What were the Fund's cost for the six months?
(based on a hypothetical \$10,000 investment)

Class Name	Cost of a \$10,000 Investment	Cost Paid as a percentage of a \$10,000 Investment
WesMark Large Company Fund	\$59	1.19%

How did the Fund perform for the last six months?

The year has started strongly for large-cap after above-average returns in 2023, with large-cap growth driving an outsized proportion of overall returns. Sector allocations have provided alpha while security selection has also become more pronounced. We continue to favor companies with robust growth potential, although we are remaining cognizant of valuations.

How did the Fund perform over the past 10 years?

The WesMark Large Company Fund Fund returned 21.03% for the 12 months ended June 30, 2024. This is in contrast to the S&P 500 Total Return Index, which had a 24.56% return for the same time period. Please see below tables for additional indexes.

The chart above represents historical performance of a hypothetical investment of \$10,000 in the Fund over the past ten years (or since inception if shorter). **Performance data quoted represents past performance and does not guarantee future results.** Returns shown are total returns, which assume the reinvestment of dividends and capital gains. The table and graph presented above do not reflect the deduction of taxes a shareholder would pay on fund distributions or the redemption of fund shares.
